# ONYX AND ALEXA HABIT TRACKER

## HOW 2 GUIDE

### D EASY METHOD

To track your goal, just color in the entire hexagon.  
Leave blank or pick a different color for the days you miss.

### 🕒 HABIT TRACKER + TIME TRACKING

Each triangle  
🕒 TIME  
10 min

Total possible time  
per day = 1 hour  
(60 min)

Assign an amount of time to each triangle, so that you not only track how many days straight you worked on your goal(s), but also how long you spent doing so. It helps you feel proud of how much you have advanced, and also if you feel like you have not gotten much time in you can make up some of the time on other days.

### TRACK MULTIPLE GOALS (UP TO 6 PER DAY)

#### MY GOAL(S)

Instead of tracking your time, you can track up to 6 different goals per day. Just assign a different color per goal, and color a triangle within the hexagon per goal.

### THE BEST OF BOTH WORLDS

Assign a different goal to different days of the week, by matching the color of the goal to the color of the day.

#### MY GOAL(S)

So you can, for example, exercise 3 times a week, learn a new skill on Tuesdays and Thursdays, and have quality family time on the weekends...  
And track the time spent on each goal per day.
